Foreword

We wish to thank all our customers for the nice business they have given us in the past.

This year we offer 385 varieties of the best in Irisdom. Every buyer of Iris who has dealt with us in the past is entitled to an extra premium of 10% in Iris Value; this in addition to our regular premiums, so if you order of us this season, take this extra 10% premium.

This premium is based on the net cash sent with order. When our premiums are taken into consideration this catalog does give you Iris at wholesale and less.

We do not issue any other list and our wholesale is based on the amount of money sent with order; just read our premium list. It has been a great temptation to issue a Catalog with colored pictures, but as this would add many thousands of dollars to our costs we did not do so, as prices would have to be much higher if we had. We pass the savings on to our customers instead by pricing our list accordingly.

One expense we never try to cut down is the growing expense; we pay good wages and grow, of course, better stock for this reason. Good, sturdy, strong rhizomes can never be produced by cutting down on labor expenses.

Pay strict attention to our guarantee on stock growing for you. Stock must grow for you, and if any loss is reported to us before October 1, the year of purchase, we will send replacement, or if we cannot replace, will refund your money.

Shipments will start about June 28. Orders will be shipped in rotation as received.

We cannot allow the sensational premiums if you wish special shipping dates. Net list price to prevail if you wish special shipping dates.

By digging thousands of rhizomes at a time we can assemble orders at much lower cost than if we had to dig each order separately. This is a tremendous saving in labor cost and by shipping at our convenience the saving is passed on to you by allowing our Sensational Premiums.

Descriptions are sketchy, but as this Catalog goes to Iris lovers who really know Iris we feel you do not need a lot of word pictures. We include a fine list of Daylilies this year, and as stocks of the newer things increase, we will list them.

OUR GUARANTEE

Every Iris Catalog you may read tells you about the superior rhizomes they raise, and to the layman that is very confusing, as every Iris grower cannot produce stock better than anyone else. No joke intended here.

Now first, and last, the thing that produces good Iris rhizomes is the proper soil suited to growing Iris for market. Next, water is applied as needed to keep the plants growing steadily.

Our climate does not have very much rain so we furnish water to our plants as needed, giving steady growth, and that is the secret of the large, husky rhizomes we send to our customers.

Another thing, we don't just say in our catalog; we guarantee Iris to reach you in good condition, and if they don't, notify us promptly.

We say this: Every plant is guaranteed to grow for you and if a plant is defective and does not grow, even though your soil condition at the spot of planting may be rank poison to the plant, and the plant dies, then if you notify us before October 1, year of delivery, we will either replace or refund your money.

Our winters are not rainy. We have snow and dry zero weather at times throughout the winter, and our rhizomes are tough and can take it.

The state of Washington, like Oregon, has cold, snowy winters east of the Cascade mountains, and west of the Cascade mountains the winters are wet and rainy, rather than cold.

We are east of the Cascades with climate about like Kansas, Illinois, Indiana and Kentucky, for example.

The soil for raising Iris is here, and we do grow them to perfection.

Any doubt you have in your mind about where to get your Iris Rhizomes can be satisfied with this test: Get half from us and the other half from your old favorite dealer, and compare the rhizomes, growth and how well they grow for you.

If you don't want to deal with the Iris Test Gardens for years to come, don't do this.

Irrigation doesn't make plump rhizomes—IT'S THE SOIL—and we have the proper soil.

We can turn on our water whenever needed, never excess water as with rain, but just right, the right amount of water the plant requires to produce our top size Washington rhizomes.

Our business is based on repeat orders year in and year out; that's the proof that WE DO DELIVER THE GOODS.

WASHINGTON STATE TAX

All Washington State residents: Please add 3% sales tax to the amount of your order. Outside State of Washington, no tax.

Welcome

The American Iris Society will hold its annual meeting in Portland, Oregon in 1949. Your Iris Bulletins in January will give you the dates.

All judges and members and officers of the Iris Society are cordially invited to visit our gardens in Yakima, and our Yakima judges will be only too happy to show you the various Iris Gardens here and the named varieties and the seedlings that we think will merit your visit.

As the climate in western Oregon is entirely different than ours you can see a different type of grown Iris here than you will see in Oregon.

Our winters are cold with plenty of snow, our springs and summers are hot and dry, very much like southern Ohio, Illinois, Kentucky and northern Tennessee in winter, but much less rainfall in the summer here.

We think our soil and long growing season in the summer does produce superior Iris Rhizomes. We can turn on the water when needed and give just exactly the proper amount of moisture to keep our Iris growing steadily with no checks due to drouth or severe rainfall.

We are located east of the Cascade mountains. In Puget Sound in Washington there is five times the rainfall we have here. Their climate is comparable to Oregon west of the Cascades.

We are on the road to Coulee Dam, the greatest work ever produced by man.

Dry Falls, on the road to Coulee Dam, was about three times greater than Niagara Falls. This, of course, was before the Columbia river changed its course.

Again we will welcome you and show you many hundreds of Iris Varieties and lots of new seedlings to bloom in 1949 for the first time, and selected seedlings that bloomed in 1948.

We Have Added Something New!

A very fine list of Daylilies that will be shipped around September 15. Our Daylily stock is guaranteed to be of the same high quality as the Iris we ship.

Daylily orders must not be sent on same order blank as Iris, as this is a separate department, and does not carry the same premiums as the Iris.

Orders up to \$5.00 are net list price; 20% discount on orders from \$10.00 to \$24.00; 30% discount on orders from \$25.00 and up.
